## ABOUT ADS

The Access and Disability Services (ADS) team strives to ensure that Dickinson programs, services, and facilities are accessible to all Dickinson students on a non-discriminatory basis.

ADS is committed to working with all eligible students with documented disabilities – and with Dickinson faculty and staff – to facilitate reasonable accommodations in the academic and/or living environment.

## THE PROCESS FOR REQUESTING ACCOMMODATIONS

Scan the above code using a QR reader to see the full disclosure and documentation process on our website.

-----  
**Disclosures to ADS are confidential and will never appear on a student's college record. We are committed to the privacy of every Dickinsonian.**

**Professors only learn of a student's accommodation needs when that student chooses to make them aware.**

## WHEN TO DISCLOSE

We ask that students disclose to ADS any potential need for accommodations as soon as possible so that we can work with you on documenting and addressing your accommodation needs.

I receive academic accommodations and let me tell you: receiving these accommodations has completely changed my life as a student for the better. I now enter exams knowing that I will be able to finish on time and that all of my stress and anxiety will be gone because of that.

...If you [have or] think you have a disability, I'd say do your research and reach out. Go to ADS...get the resources that you need to succeed. You will improve as a student!"
